

To: FCC I have been enjoying XM Radio for around two years now. I have also signed up my wife and son and recommend it to everyone. I want the freedom to choose what I listen to and if I choose to pay to receive better quality service I want to be able to do that. Please do not let anyone take away that choice. Please reject the NAB's petition 04-160. Competition is the American way. Those who provide the best service should be allowed to succeed without governmental intervention.

Thank You,

Ken Warkentin
